## Filler Caps, Necks & Accessories For Fuel and Water Storage

From Wisco Products

If you manufacture engine-powered watercraft, Wisco Products has the stainless steel and aluminum components for your fluid-fill interfaces. Wisco Products has been providing quality fluid-fill capping solutions to original equipment manufacturers for nearly 80 years. Wisco Products has fluid-fill caps, necks, strainers, transitional mounting tubes and dipsticks for your fluid storage systems. Whatever quantities you require, Wisco Products can supply the solutions for your fuel, lubricant, cooling, water storage and hydraulic fluid-fill interfaces. Some of our standard products are shown below. Our staff can also work with your designers and engineers to develop products to meet your special applications.
