Heavy Duty High Performance

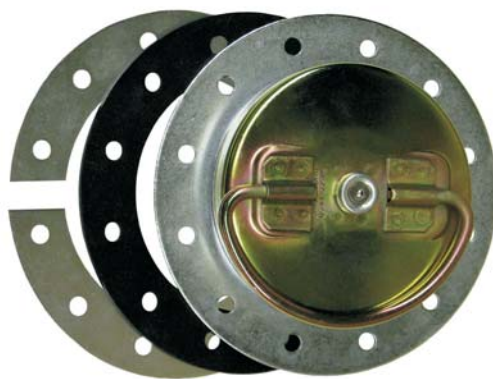

RACING FUEL FILL Caps, Necks and Mountings

From Wisco Products

Wisco Products, a leader in fluid fill accessories, manufactures a line of high-performance racing fuel-filler caps, necks and mountings. These 1/4-turn quick-release caps are lightweight, positive-sealing, impact-, fuel- and corrosion-resistant and compatible with all racing fuels.

600 Series

The heavy-duty 600 Series metal filler cap, neck and mounting offer a secure installation to your fuel cell along with a large diameter neck opening for fast refueling.

600 Series Cap with Flanged Neck, Gasket and split Mounting Ring

Flush-Mount Series

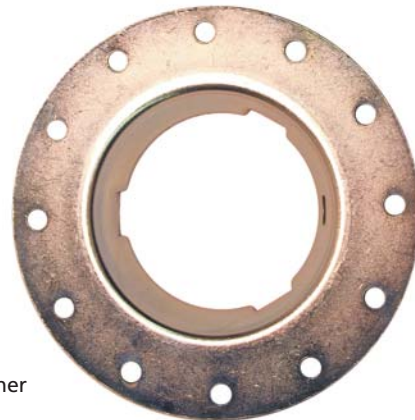

The performance advantage of the Wisco Flush-Mount Fuel Cap system is due to a specially designed plastic cap that fits inside the mating filler neck and provides a flush surface at the neck flange. Wisco Flush-Mount Fuel Caps come in an attractive finish of Red or Black.

Flush-Mount Plastic Caps in either Red or Black colors

Custom Accessories

Our staff can also work with your designers and engineers to develop products to meet your special applications.

Flush-Mount mating Necks in either 6-hole or 12-hole configurations
